

BRICK & PATIO CLEANER

Acid Based Brick Cleaner

Technical Data Sheet

BUILDERS COMPLETE RANGE

Description:

A premium grade, acid based hard surface cleaner, formulated to remove unsightly stains caused by numerous every day occurrences, as well as builders splatter.

Features & Benefits:

- ◆ Powerful acid cleaner.
- ◆ Increases durability.
- ◆ For exterior applications.
- ◆ Removes stubborn mortar stains from brickwork, paving and tiles.

Uses

For removing cement and mortar splashes, light oil stains and grease from brickwork, paving, tiles, earthenware and concrete. Bond It BRICK & PATIO CLEANER should not interfere with the various types of concrete and stone (except limestone and marble) commonly encountered in the general building area. Efflorescence can also be removed by using this product diluted.

Limitations

Do not use Bond It BRICK & PATIO CLEANER on limestone or marble as the chemicals will attack the surface. This product can also have an adverse effect on coloured concrete, test an inconspicuous area before use. For removing mould, lichen or mildew, Bond It MOULD STOP or PATIO BLASTER should be used. If used internally, extreme care must be taken and thorough ventilation provided as fumes can cause damage to sensitive surfaces.

Application

Do not add water to neat cleaner, always add the cleaner to the water.

Gloves, overalls, boots and goggles should be worn at all times during application. Protect metal surfaces and paint-work before application with polythene sheets and tape. Remove excess dirt, mortar, etc. with a stiff yard brush. If cleaning down brickwork saturate area with water to prevent damage to mortar. Before commencing a full clean down, test on an inconspicuous area with Bond It BRICK & PATIO CLEANER diluted 2:1, water to cleaner. For normal use dilute between 2 and 4 parts water to 1 part cleaner. Apply using a low pressure hose or by brush and allow to stand for 10-15 minutes ensuring the area does not dry out and is scrubbed occasionally with a stiff yard brush. Rinse thoroughly with large amounts of water, If stains persist, repeat the process and/or use the cleaner undiluted taking care to test the neat cleaner first on an inconspicuous area. For removing efflorescence

use a 4:1 dilution water to cleaner. Always use a plastic container for diluting this product. Do not allow product to come into contact with metals such as steel, copper, aluminium and titanium.

Cleaning Of Tools

Rinse equipment after use with plenty of clean water. Note: Do not throw rinsing water onto plants/ grass.

Size

2.5L, 5L and 25L plastic bottles. 200L also available on request.

Coverage

Approximately 15-30m² per 5 litres.

Colour

Clear liquid.

Shelf Life

24 months from date of manufacture when stored in unopened bottles.

Storage Conditions

Store in cool, dry conditions in a sealed container between temperatures of +5 and +30°C. Keep away from children. Store locked up and away from alkaline products and bleach. Protect from frost, high temperatures and direct sunlight.

Disposal Of Containers

Do not leave empty containers where residue could be harmful to children, animals or the environment. Remove any bottles or used material to a central disposal point in accordance with local regulations.

Health & Safety

Please refer to separate safety data sheet (SDS) for full handling, use and storage instructions. Keep out of reach of children. It is the user's responsibility to determine suitability for use. If in doubt, contact our Technical Department for advice.

Note: this information is for general guidance only, since site conditions and labour are beyond our control.

Specification Summary

Flammability	Non-flammable
Boiling Point	100°C
Composition	Dilute hydrochloric acid <10%
pH	0-2
Density	1.06g/cm ³
Commodity Code	2806100000
